The Child's Book Of The Seasons (Nature Books For Children)

by Arthur Ransome

This book is part of the author's 'Nature Books For Children' series, which is probably the best indication of its target audience and subject matter. The book is fun and charming, even for adults. Arthur Michell Ransome (1884 – 1967) was an English author and journalist, who had a reputation as one of the best English writers of children's books. "When we think of sowing seeds we think of Spring with the new corn green on the red ground, and when we think of Spring we think of Summer, when it is tall and wavy in the wind, and when we think of Summer we think of Autumn when the corn is golden and cut, and then, why, then we come to Winter again."
